

**PECE FORUM MEETING AND NETWORKING EVENT:
27 SEPTEMBER 2005**

Energy

Points raised include;

- “PECE Energy” projects could fall into one or both of two categories: PECE partnerships/projects implemented in relation to the activities of large energy companies, and PECE projects that have a sustainable energy component (renewable energy, or energy efficiency)
- The PECE partnership may wish to:
 - Investigate CIP/CSR/energy potential, possibly through a PECE “themed event” to discuss CIP/CSR spending and potential partnerships (related to sustainable energy or wider)
 - Approach ECGD about support to renewable energy projects/companies; PECE partnerships to identify commercial opportunities
- Project opportunities: Global warming/land management - Equip trust and Macaulay institute (see Event Information Pack)
